EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Gero McClellan (44,227) on July 1, 2008.

The application has been amended as follows:

In the claims:

In claim 25, line 2, please replace "tangible computer-readable medium" with --computer-readable storage medium--.

In claim 25, line 18, please replace "complements" with --components--.

In claim 33, lines 2-3, please replace "tangible computer readable medium" with --computer-readable storage medium--.

In claim 33, line 17, please replace "complements" with --components--.

2. The following is an examiner's statement of reasons for allowance: In addition to applicant's remarks, the primary reasons for allowance are the inclusion of the following limitations in each independent claim:

" combining a network address of a base resource and a plurality of data structures each indicative of a sequential user manipulation of said base

resource to form a compound network address, said compound network address suitable for retrieving a resource according to the stored user manipulations,... wherein at least one of the data structures includes a retrieve all components flag indicative of whether all components referenced by the data structure should be retrieved when accessing resource retrieved using the compound network address." (as from claim 1)

" the sequence of executable selections defining a respective sequence of navigation selections to be executed, each of the sequence of selections being executed after a sequentially preceding selection has been executed,...

wherein the sequence of executable selections further defines, for each of the sequence of navigation selections;...

a retrieve all components flag indicative of whether all components associated with the navigation selection should be retrieved when executing the navigation selection." (as represented in claim 25)

" a uniform resource locator (URL) chain header record comprising a base URL and a plurality of URL chain records, each of the URL chain records comprising a content field for storing an executable selection, the executable selection causing a present resource to be modified,... and wherein each of the plurality of chain records defines:...

a retrieve all components flag indicative of whether all components associated with the executable selection of the respective chain record should be retrieved when executing a sequence of executable selections represented by the plurality of chain records." (as represented in claim 33).

This subject matter is not found in the prior art, nor is it obvious in view of the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Examiner Comments

3. The examiner's amendment is made in part to avoid any potential 35 USC 101 issues. Particular, the language "computer-readable storage medium" provides a scope that is proper under 35 USC 101 based on the distinction made, on page 6 of the specification, between storage media and communication media.
4. The examiner's amendment also corrects a typographical error in relation to "complements" actually being intended to be "components" as is consistent with the claims and specification.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to DAVID LAZARO whose telephone number is (571)272-3986. The examiner can normally be reached on 8:30-5:00 M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Saleh Najjar can be reached on 571-272-4006. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
